From the Supt of Govt Gardens. No 386 of 11.4.08 In reply to Sl. 5 above states that the present lessee has no objection to deliver possession of the lands immediately if a sum of Rs 200 is paid as compensation and that it is proposed by the lessee as an alternative that he may be allowed to be in possession of them until the next paddy crop is raised. Sub-3 The lessee states in his petition of 27th March 1908 that he is willing to make over the land after the next paddy crop is harvested; but if the land is immediately required he demands a sum of Rs 200 with he has spent for the next paddy crop. The lease was granted for 5 years from the year "Parabhava" ie March 06.

General and Revenue Departments.

Sir,

In reply to your no. G 3999 / G.M. 186-07-1 dated the 10th January 1908, I have the honor to report that wet cultivation has been carried on in the Daria Dowlet garden. The last Crop is however harvested and the land is now lying fallow.

There is no reason why it should not be Converted into an orchard: in fact it is desirable to do so on several grounds.

1. As a sanitary improvement of the place.

2. For the better income that may accrue after the orchard is established.

3. Its demonstrative value for the encouragement of fruit Culture.

4. On historical grounds, I

about four years, till the trees are established will cost about ~~Rs~~ 400/- after which it can be somewhat reduced and a good income may be derived which it is reasonable to presume will eventually recoup both the initial expense on the orchard as well as the loss of profit on account of stopping wet Cultivation, though in absence of details and a fuller knowledge of local conditions it is difficult to be more Concise as to the period.

Orders of Government are Solicited whether plans and detailed estimates should be prepared or the scheme with the above approximate figures has the approval of Government.

I have the honor to be,

Sir,

Your Most obedient Servant
